

Website: How to Configure a Vehicle

1. When you log in to your personal account, your page will open as such.

2. Click on Shop Vehicles

Shop Vehicles

3. The list of vehicles will be displayed. Select the model.

4. The configurator will open

5. Here, you can go through each listed option, and make your selections
 - a. If you make a selection that requires other options, the configurator will let you know what to add or remove.

Please resolve the following incompatible selections:
Compliance : Not available with Speeds: (std) 19 MPH High; 15 MPH Low, Motion Beeper: (std) Reverse Alert
Speeds : Not available with Compliance: LSV
Motion Beeper : Not available with Compliance: LSV

- b. Those areas will also turn red, alerting you where the changes need to be made.

- At the bottom of the options configured, there is a list of all of the standard options that are on the vehicle.

Standard Options:

Power System: (std) AC Drive 450A; 5kW Motor

Charger Accessory: (std) Charger Extension Cord

Brakes: (std) Four-wheel Hydraulic

Power Control: (std) Individually Keyed

Steering Control: (std) Power Assist

- If you have all options selected, and happy with the build, click ADD TO CART. You can also update the quantity of vehicles needed here as well.

- Your Cart will pop open, with the product, and your pricing. You can either proceed to checkout, or continue shopping if you have other vehicles to configure.
